

America was founded predominantly by Bible-believing Christians that America's political institutions were constructed entirely upon Christian principles, and that America's Founding Fathers had in mind a government that would not only be hospitable toward Christianity, but would actively encourage and promote Christianity and reverence for God. As the United States Supreme Court stated so clearly in 1892:

*"Our laws and our institutions must necessarily be based upon the teachings of the redeemer of mankind. It is impossible that it should be otherwise; and in this sense and to the extent, our civilization and our institutions are emphatically Christian."*

The purpose of the First Amendment was to protect a religious people from the government, not to protect the government from a religious people. It is perfectly all right under the First Amendment for the Government of United States to favor Christianity over other faiths, so long as other faiths are not persecuted by the government, and so long as the national government does not attempt to set up a national church.

Please hear our plea to not impose these regulations on our Christian radios which resides in the United States of America; One Nation under God.
